

Cleerline™ Outdoor Terminal Boxes provide secure protection for terminations in OSP environments. Each terminal box is designed to maximize efficiency, allowing easy access to feed-thru adapters while using the least amount of space possible.

All outdoor terminal boxes provide ample cable management, including winding areas and pass throughs. Hinged internal distribution panels allow two levels of cable management.

Cleerline™ Outdoor Terminal Boxes are available in sizes to accommodate 2, 4, or 12 feed-thru's.

Feed-thru adapters are sold separately.

FEATURES AND BENEFITS

- Durable plastic construction
- Included winding area
- Compatible with standard adapters for fiber optic connectors
- Secure closure
- Optimized cable management
- PC + ABS material, waterproof, dust-proof, protection up to IP65

ENVIRONMENTAL REQUIREMENTS

| | |
|----------------------|------------------|
| Working Temperature | -40°C - +85°C |
| Relative Humidity | < 85% (+30°C) |
| Atmospheric Pressure | 70 kPa - 106 kPa |

| PART NUMBER | FEED-THRU CAPACITY | HEIGHT | WIDTH | DEPTH |
|-------------|--------------------|-------------------|-------------------|------------------|
| SSF-OTB2 | 2 | 6.5 in / 16.5 cm | 4.75 in / 12.1 cm | 1.19 in / 3.0 cm |
| SSF-OTB4 | 4 | 7.3 in / 18.6 cm | 4.6 in / 11.6 cm | 1.57 in / 4.0 cm |
| SSF-OTB12 | 12 | 8.89 in / 22.6 cm | 8.38 in / 21.3 cm | 2.63 in / 6.7 cm |
