

Planet Waves Tools are designed to facilitate the cleanest, most efficient installations.

**CUTTER/SCREWDRIVER KIT**

The CITK01 Cutter/Screwdriver Kit features an ergonomically-designed screwdriver, which will quickly become a favorite. Easy to hold and twist with one hand, it makes terminating Planet Waves cable a breeze. The accompanying cutter is an essential first step to clean, precise custom cables.

The SD01 Screwdriver is designed for use with the patented Planet Waves Termination system. It includes an strong magnetic collar for screw storage during termination.
